Out-of-County Disposal		Waste Exported in 2008 Los Angeles County to Out-of-County Class III Disposal Facilities = 1,914,153 tons 6,135 tpd-6															

NOTES:
1. Disposal quantities are based on actual tonnages reported by owners/operators of permitted solid waste disposal facilities to the Los Angeles County Department of Public Works through the State Disposal Reporting System.
2. Estimated Remaining Permitted Capacity based on landfill owner/operator responses in a written survey conducted by Los Angeles County Department of Public Works in March 2009 as well as a review of site specific permit criteria established by local land use agencies, Local Enforcement Agencies, California Regional Water Quality Control Board, and the South Coast Air Quality Management District.

Abbreviation:
LUP Land Use Permit or Conditional Use Permit

FOOTNOTES:
(a) Conversion factor based on in-place solid waste density if provided by landfill operators, otherwise a conversion factor of 1,200 lb/cy was used.
(b) Antelope Valley Landfill's daily capacity of 1,800 tons is based on the Solid Waste Facility Permit issued on 12/26/95 for the unincorporated County landfill area (expansion capacity included).
(c) Based on the Solid Waste Facility Permit limit of 2,800 tons per week, expressed as a daily average, six days per week.
(d) Based on EPA limit of 500,000 tons per year, expressed as a daily average, six days per week.
(e) Tonnage expressed as a daily average, six days per week.
